

STORY RENTALS EVENT SPACE DETAILS

Story' guests are welcome to use anything in Story aside from the espresso machine/coffee equipment. We've tried to account for everything here and to keep this document current, but if there is something you don't see you think we may have and don't see here, just ask!

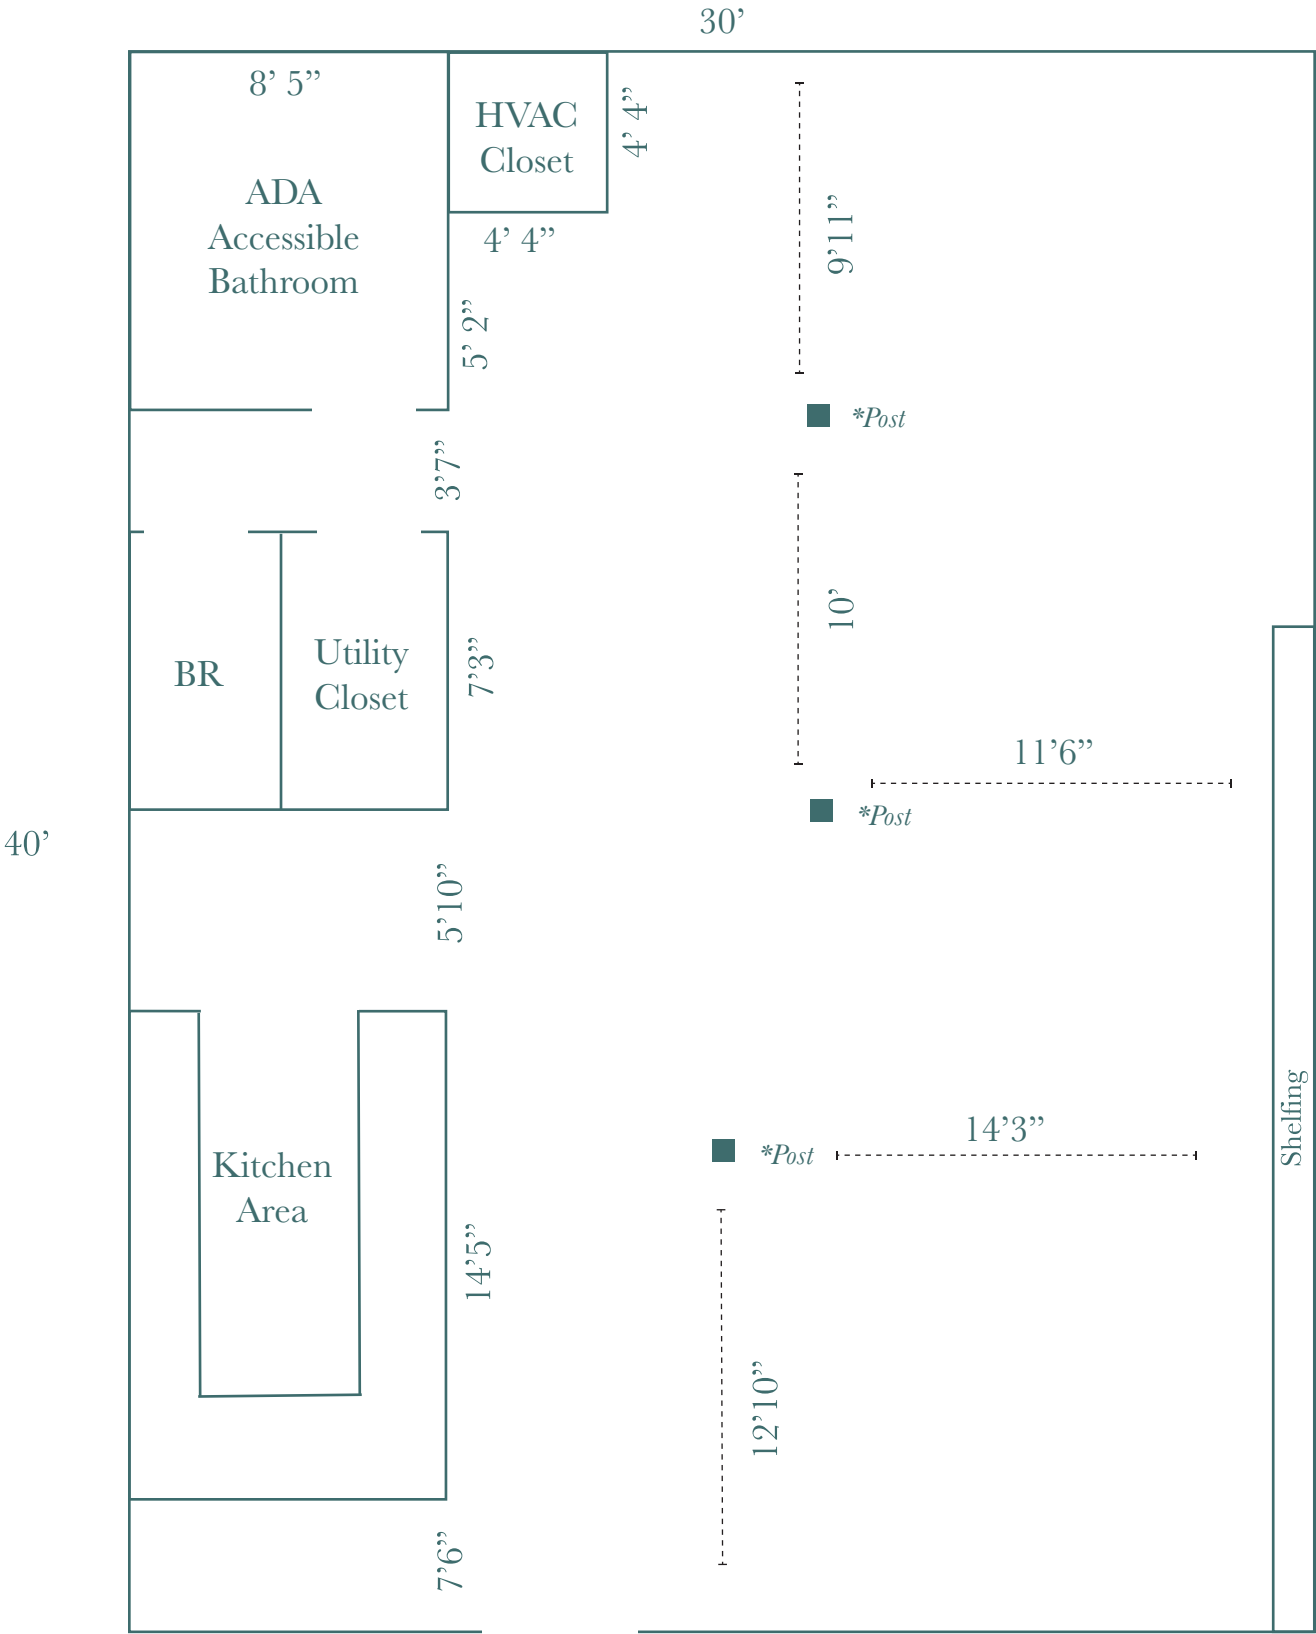

BUILDING LAYOUT

BUILDING LAYOUT

Story is roughly 1200square feet

SEATING

Tables and chairs can be configured to guest preference either by asking for a certain layout prior to the event or by moving them themselves. Everything is easy to move - in fact one person can move everything except the couches which need two people to keep from dragging them across the floor. We ask that all furniture be picked UP to move and never drag.

Connect to our projector and play presentations or movies on the big screen - to connect you will need a computer or device with a HDMI port or an HDMI adapter.

Parking

15 spots on Story's property

Some are alongside the building along Gee Street and a few are behind the building accessible from Matthews Avenue.

*Empty lot across the street - we know the owner and have been given verbal permission that it won't be an issue for the foreseeable future. Please note we do not own this property and cannot guarantee anything regarding its continued use but we have a great relationship with property owner and expect that to continue. We ask you to treat it with the utmost respect so that our guests can continue to use it.
