

2026/27

PRODUCT OVERVIEW

Our mission is simple: to provide high quality Australian made plunge pools that enhance your lifestyle without breaking the bank.

Simple | Affordable | Australian

3 step process

1 CHOOSE YOUR WATER PREFERENCE

\$

Standard Chlorine

No optional extras required. Simply enjoy your plunge pool with the use of our pump, filter and granular or liquid chlorine as required.

\$\$

Magnesium salt

Simply add a Waterco Magnesium Chlorinator to the standard pool package and transform your plunge pool into a luxurious magnesium oasis. Enjoy softer, silkier water that helps minimise skin irritation while benefiting from the many wellness advantages of magnesium.

\$\$\$

Freshwater

Choose the Naked Freshwater Package and enjoy fully automated water balance management by combining the NKD-M with our pH Controller. Fresh, naturally balanced water with outstanding clarity, a cleaner and more refreshing swim, reduced maintenance and enhanced comfort, giving you more time to simply relax and enjoy your pool.

2 CHOOSE YOUR POOL SIZE

Burleigh 4800 ltr
with bench seat

Byron 1950 ltr

Bells 1300 ltr

3 CHOOSE YOUR EXTRAS

Personalise your plunge pool with a range of optional extras, including custom lockable covers, energy-efficient heaters, LED lighting, stylish decking and more. Create a pool experience tailored to your lifestyle with added comfort, convenience and year-round enjoyment.

Monument

Night Sky

Optional extras

Custom covers

\$1,245 DELIVERED

Custom-made insulated covers in colours to suit any backyard, tailored to your pool's dimensions with 8 lockable straps for a secure fit. They minimise heat loss and evaporation, maintain water temperature, extend your swimming season and keep debris out.

- + UV-resistant, durable construction for harsh weather
- + Reduces chemical use and blocks sunlight to prevent algae growth
- + Child and pet safety with lockable straps

Lighting

\$595 LED LIGHT

Transform your pool with vibrant LED multi-colour underwater lighting. Perfect for evening swims and entertaining, these energy-efficient lights let you create the ideal mood with a range of colours and effects. Durable and fully waterproof, they add style and atmosphere all year round.

Heating / cooling

\$3,695 HEATER

All Pure Plunge packages can be equipped with a premium Henden inverter Heater/Cooler for complete temperature control throughout the year. Heating extends your swimming season well into autumn and winter, while the cooler option keeps water refreshingly cool on hot summer days.

Please note separate pricing is available for WA.

Naked Freshwater System

Combine the NKD-M with our advanced pH Controller for a fully automated freshwater management system that maintains optimal water balance and crystal-clear water with minimal maintenance. By continuously managing sanitiser efficiency and pH levels, the system reduces manual testing and chemical adjustments while delivering consistently fresh, natural-feeling water.

Gentle on skin, eyes and hair, the balanced freshwater environment helps eliminate the harsh chemical feel and odours associated with traditional pool systems, so there's no need to shower after your swim. Enjoy greater comfort, improved pool performance, and more time spent enjoying your pool rather than maintaining it.

✓ No red eyes or irritated skin

✓ Perfect for asthmatics, psoriasis and eczema

✓ Up to 50% saving on running costs

✓ No need to wash swimwear or shower after swimming

✓ Natural, rejuvenating and refreshing

✓ Easy to set up and manage

READY TO ENJOY

Supply, install & delivery

Installation

We can organise fast, reliable and cost-effective installation and delivery, including setup of the pump, filter, heater, light and chlorinator, plus all necessary pipes, fittings and valves.

Delivery

A two-person team will unload and place your plunge pool in your backyard, as long as clear access is available. Alternatively, we can provide a driveway drop off service for a more cost-effective price.

DESIGN AND COLOUR VERSATILITY	Multiple colour options	Stainless steel only	Multiple colour options	Wide variety of tile designs
LOCKABLE RIGID COVER OPTIONS	Yes	No	No	No

Pure Plunge Pools (HDPE)

Seamless mould with no joints or liners for superior strength

Durable HDPE resists chemicals, UV, corrosion and scaling

Lightweight yet robust, easy to transport and install

Available in multiple colours for style and affordability

Stainless steel plunge pools

Silicon-welded joins prone to staining and corrosion under poor water balance

Thin walls (as little as 0.5mm) make them vulnerable

Require strict, frequent maintenance and fresh-water cleaning

Limited to a stainless look; rim overheats in sunlight

Stainless steel with vinyl liner

Liners wrinkle, fade, puncture, leak or float under pressure changes

Damage often needs a full liner replacement, raising costs

Typically installed in thin (0.5mm) stainless shells with welded joins, less robust overall
