News – *interviewed* |

- Worked with several different news companies who wanted to learn more about our story of bringing the US back on the map.
- Some of these included NBC News, WHYY, Inquirer, and Joy Sauce.

LEADERSHIP & COMMUNITY DEVELOPMENT

USA Artistic Swimming – *athlete* | Colorado Springs, CO

09/2020 - 08/2024

- With my leadership and dedication, we were able to change the team dynamic from one that was toxic and demotivating to one that was motivating and worked collaboratively as well.
 - The United States Artistic Swimming Team has not been excelling on the international stage for quite some time. The last time we had won a medal at the Olympics was 2004 and the last time we had even qualified to go to the Olympics was 2008. Joining the team at a young age, I had huge dreams; I knew that I wanted to get the US back on top.
- We then went on to win the first few medals for the US at the World Championships in 2023. With this momentum we were able to qualify the team for the Olympics and ultimately win silver at this past Paris 2024 Olympic Games.

ADDITIONAL SKILLS

- **Skills and Language(s)**: English and Japanese (fluent)
- **Programs**: Stanford University, Stanford Artistic Swimming team, USA Artistic Swimming
- **Interests**: I am very interested in sports psychology and exploring how our mental aspects affect our performances. Also really interested in how I can contribute to bettering society. We are all so divided and if there is one thing I learned throughout my sports journey it is to know how to bring people together.
- **Biggest sports lesson**: Through sport I have been able to learn the importance of teamwork, especially with my sport where we quite literally have to be one to succeed. Coming into a team where everyone had such different backgrounds with strong personalities that often clashed, it was a challenge to learn how to bring everyone together towards a common goal. Over time we were able to create a sense of unbreakable trust and unity within each other. This trust and collaboration is what ultimately led us to our history making silver medal.
