

STILL NEED TO PASS HJR54

Better Together has pulled their proposal for the St Louis City -County merger. They made some mistakes. They chose the wrong intended mayor in Stenger. They alienated the Black voters in the City. They did not see the Missouri house voting 143 to 10 in favor of HJR54 . They did not see the county unite against their proposal. Now they say they will rework their proposal and LET the City -County have a regional vote.

To trust the trustworthy is good but to pass HJR54 is better. Now is the time. Leave no doubt. This legislation will protect all the cities and counties in Missouri.

Here are the names of you state senators. Please call them and tell them to remain focused and PASS HJR54!
