Engineering Cisco Meraki Solutions (Part 1)

ECMS1

Course Overview

The Engineering Cisco Meraki Solutions Part 1 (ECMS1) v1.1 course equips you with the knowledge and skills to confidently operate Cisco Meraki solutions as a unified management system of an entire network from a centralized dashboard.

Through a full day of instruction including live demos and guided lab practice, you will learn how to implement core configurations for a full stack solution in the Meraki Dashboard and leverage essential Meraki Dashboard tools to enforce device security policies, deploy software and apps, and perform remote, live troubleshooting on managed devices.

This is the first of two courses that prepare you to take the Cisco Meraki Solutions Specialist certification exam.

Objectives

Upon completing this course, the learner will be able to meet these overall objectives:

- Learn the skills, technologies, and best practices you need to deploy Cisco Meraki solutions and operate the Meraki platform
- Validate your knowledge and prepare to take the Cisco Meraki Solutions Specialist certification exam
- Implement core configurations for a full stack solution in the Meraki Dashboard
- Deploy foundational Meraki product features to meet basic IT requirements
- Understand and leverage essential Meraki Dashboard tools for troubleshooting

Prerequisite Knowledge

To fully benefit from this course, you should have the following knowledge and skills:

- Basic network fundamentals and building simple LANs
- Basic IP addressing and subnets
- Routing and switching fundamentals
- Basic wireless networking concepts and terminology

Real skills for real engineers
