

Earn Recognition Your Way with Cisco Specialist Certifications

There's never been a more exciting time to work in technology

Intent-based networking connects users, devices, apps, security intent, and policy

APIs and programmability drive new automation, agility, and scale

Multi-domain solutions cross enterprise, data center, service provider, and security

But with all this complexity, there is no one-size-fits-all certification solution

Infrastructure engineers need software development skills

Software developers need to understand the infrastructure they code for

Everyone needs to understand automation and security

With new Cisco® Specialist certifications, you can earn a certification for every proctored Cisco exam you pass at the professional and expert levels

- That's right. Every proctored exam.
- In every technology area, including DevNet.
- So in addition to CCNP® and CCIE®, you have dozens of additional specialized certifications to choose from.

Get recognized for all your accomplishments, every step of the way

Specialist certs from many technology areas can complement each other

Your unique combination of specialist certs can set you apart from the crowd

Specialist certs let you advertise your versatility to hiring managers

Did we mention that hiring managers love certified candidates?

of technology executives and managers consider certifications a critical success factor

of organizations use certifications to make hiring decisions

Earn specialist recognition on your way to CCNP and CCIE certifications

Customize your collection of certifications to your areas of interest and your job focus

Qualify for a CCIE lab exam by earning the core specialist cert in the corresponding technology areas

Link your specialist certifications to all your social media profiles

Show the world you know your stuff with your unique collection of certifications

New exams go live on February 24, 2020

Take your career to the next level with new Cisco specialist certifications.
