"It's time to break the cycle of health care inequality."

Dr. Toyin Ajayi,
Cityblock co-founder

Hello <FIRST NAME>,

I'm Dr. Toyin Ajayi, one of the founders of Cityblock Health. We recently sent a letter to let you know that as a new partner of your health insurance, our services are fully covered by your health plan. I'm excited to welcome you to Cityblock.

As a doctor, I saw the need to put patients first. That's why we founded Cityblock Health. Our goal is to deliver the best care to those often left behind by the health care system.

We believe everyone deserves to get great health care. This is why we provide a dedicated team of doctors, nurses, mental health experts, and social workers. They will do whatever it takes to get you the help you need, and the care you deserve.

Please visit us at cityblock.com/ to learn more. Call us at 833-904-2273 (TTY: 711) to schedule your first visit. We can't wait to meet you.

To your health,

Toyin Ajayi, MD
Cityblock Health co-founder
