

A Message From Your Superintendent

I would like to welcome you to our school district and **“THANK YOU”** for trusting us to educate your children. As we start a new school year, we reflect on our strengths and weaknesses and continue to assess our organization to make it stronger each year. Our focus in our school district is to provide a learning environment that develops children to be confident, happy, and successful in academic and extracurricular activities. This will happen only if your child attends school every day! As an organization, we will heavily rely on you to get your child to school on time, ensure that they get plenty of rest at home, and guarantee that they will be ready to be the best that they can be daily. Providing this type of structure at home will assist us in educating your child so that they will succeed in everything that they attempt in life.

I strongly encourage you to communicate with our school staff using our Parent Band App, emails, phone calls, school Facebook, and letters throughout the year. Our school district attendance goal for the upcoming school year is 95 percent. A friendly reminder that daily student attendance is tied to our student attendance incentive program and end of the year field trips.

My promise to you is that we will be providing a safe and great learning environment where all children will learn. Who knows, we might just have the next doctor, nurse, pilot, engineer, attorney, teacher, craftsman, Senator or the President of the United States sitting in our classrooms!

Dr. Michael J. Sandroussi
DMLGG Superintendent of Schools

A School of Hope & Opportunity
