

A Message From The Superintendent

“Dr. Michael J. Sandroussi”

I would like to welcome you to our school district and **“THANK YOU”** for trusting us to educate your children. Although we fought through the pandemic last year, we managed to keep our doors open in order to continue instruction. With your continued support, we will continue to fight throughout the school year to keep our doors open. In order for this to happen the staff, students, and parents must continue to follow all COVID protocols throughout the year. The school district has implemented a security system to minimize visitors onto our school campus and will continue this year. We strongly encourage you to communicate with our school staff and personnel through emails, phone calls, and letters throughout the year. Our school district attendance goal for the upcoming 2022-2023 school year is 95 percent or higher. Our focus in our school district is to develop individuals to be the best that they can be on a daily basis. When your students are in school every day, they will maximize their learning experiences and will develop important skills to be successful in and outside of the classroom.

On Tuesday, May 24, 2022, there was a school shooting at Robb Elementary School in Uvalde, Texas. This event sent shock waves across our nation and created a deep sense of responsibility to keep our students safe in our school districts. At Dr. M.L. Garza-Gonzalez Charter School, we have many safety protocols in place to ensure the safety of our students when they are in our building. My promise to you is that we will continually strive on a daily basis to improve our security safety systems in our school district to provide a safe environment for all of our students and staff.

I am looking forward to a great 2022-2023 school year and continue to educate the future of “America”!

“Reading Is the Most Important Skill That We Can Teach Our Students”
