<ul style="list-style-type: none"> non-condensing tankless 	\$400																		
<ul style="list-style-type: none"> condensing tankless and hybrid 	\$500																		
<ul style="list-style-type: none"> condensing storage tank 	\$1,000																		

We're working together to help B.C. save energy.

Energy advisor supported upgrades

Upgrade	Rebate	Requirements
<p>For all energy advisor supported upgrades: Complete both a pre- and post-upgrade EnerGuide home evaluation. After your post-upgrade EnerGuide home evaluation, your energy advisor will submit an Energy Advisor Supported Upgrades application on your behalf. You must still complete and submit your Home Renovation Rebate Application.</p>		
<p>Pre- and post-upgrade EnerGuide home evaluation This will include the following value-added services:</p> <ul style="list-style-type: none"> • Expert 3rd party consultation • A customized, detailed Energy Efficiency Action Roadmap 	<p>\$150 Energy Coach Home Evaluation Rebate⁶</p>	<ul style="list-style-type: none"> • Complete both the pre- and post-upgrade EnerGuide* home evaluation after September 1, 2016. • Use a program-qualified energy advisor. Find your program-qualified energy advisor here.
<p>Draftproofing</p>	<p>\$10 × every 1% of air leakage reduction Example: \$10 × 15 = \$150</p>	<ul style="list-style-type: none"> • Complete the post-upgrade EnerGuide home evaluation, and submit all required rebate application forms, within 36 months of the initial pre-upgrade EnerGuide evaluation. • Rebate is based on the difference between the pre- and post-upgrade EnerGuide home evaluation air leakage rate. • Applications will only be processed for draftproofing rebates of \$50 or more. • Maximum rebate is \$500.
<p align="center">Bonus Offer – install three or more eligible upgrades (pre- and post-upgrade EnerGuide home evaluation required)</p>		
<p>Install three or more of the following:</p> <ul style="list-style-type: none"> • insulation—attic (flat and cathedral ceiling) • insulation—exterior wall cavities • insulation—exterior sheathing • insulation—basement/crawlspace • insulation—other • Draftproofing • ENERGY STAR or high-efficiency space heating system • FortisBC eligible EnerChoice fireplace • FortisBC eligible ENERGY STAR water heater • Electric Heat Pump Water Heater • ENERGY STAR windows and doors • ENERGY STAR heat recovery ventilator (HRV) 	<p>\$750 Bonus Offer</p>	<ul style="list-style-type: none"> • Complete the post-upgrade EnerGuide home evaluation, and submit all required rebate application forms, within 36 months of the initial pre-upgrade EnerGuide evaluation. • Each insulation upgrade must qualify for a minimum \$150 rebate in one location. • Draftproofing upgrades must qualify for a minimum \$150 rebate. • Must meet bonus offer requirements noted in Home Renovations Rebate Program terms and conditions to be eligible.

¹Must be installed by a licensed contractor. ²For electrically heated homes only. ³Minimum HSPF of 8.5 and SEER of 15. ⁴You can apply for a natural gas fireplace rebate either through the Home Renovation Rebate Program or FortisBC's EnerChoice Fireplace program, but not both. ⁵You can apply for natural gas water heating rebates either through the Home Renovation Rebate Program or FortisBC's individual rebate program but not both. ⁶The Energy Coach Home Evaluation Rebate is funded via a limited grant through the Province of BC Innovative Clean Energy Fund and will be paid on a first come first served basis according to the date the completed application is received until all available supplemental funds are exhausted.
