- Provide the installation permit number(s) and date.

**Program date is subject to change and total number of rebates available may be limited in FortisBC's discretion. Processing of applications may take up to 90 days.*

Connect to Gas – terms and conditions

Overview

Eligible FortisBC Energy Inc. ("FortisBC") customers (each, a "Customer") with a pre-qualification code, who convert their primary home heating system from a residential oil or propane heating system, or a wood stove, to one of the following may be eligible for the following rebates as part of the Connect to Gas program (the "Program"):

- a qualifying natural gas furnace or boiler (each, a "Heating System") may be eligible for a \$1,300 rebate; or
- a qualifying natural gas combination heating and hot water system or a Heating System and a stand-alone hot water system (each, a "Heating and Hot Water System") may be eligible for a \$1,700 rebate; or
- a Heating System and a natural gas BBQ, patio heater, outdoor fireplace or fire pit (each, an "Outdoor Appliance") may be eligible for a \$1,600 rebate, if the equipment was installed on or after July 1, 2020; or
- a Heating and Hot Water System and an Outdoor Appliance may be eligible for a \$2,000 rebate, if the equipment was installed on or after July 1, 2020.

Eligible contractors (each, a "Contractor") who install Heating Systems before July 1, 2020 may be eligible for a rebate in the amount of \$50 for Heating Systems and \$100 for Heating and Hot Water Systems.

Eligible contractors (each, a "Contractor") who install Heating Systems on or after July 1, 2020 may be eligible for a rebate in the amount of \$100 for Heating Systems, \$150 for Heating and Hot Water Systems, and an additional \$25 for installing an Outdoor Appliance.

Program Eligibility

- To be eligible for a rebate under the Program, the Customer must first obtain a pre-qualification code from fortisbc.com/connectogas. Codes cannot be assigned or transferred.
- In order to qualify for a rebate under the Program, the Contractor must install a Heating System or Heating and Hot Water System in the Customer's residence, with optional addition of an Outdoor Appliance, which must be in FortisBC's natural gas or propane service territory.
- The Customer must be converting their primary residential home Heating System from wood, oil or propane to natural gas.
- The Program is for existing homes only and is not available for new construction.
- Only one Program rebate is available per residential account. Rebate amounts will be determined based on whether the Customer installed a Heating System, Heating and Hot Water System, Heating System and Outdoor Appliance, or Heating and Hot Water System and an Outdoor Appliance.
- Contractors are eligible to receive one \$50 rebate for each Heating System they install before July 1, 2020 and \$100 for each Heating and Hot Water System they install before July 1, 2020.

- Contractors are eligible to receive one \$100 rebate for each Heating System they install on or after July 1, 2020, \$150 for each Heating and Hot Water System they install on or after July 1, 2020, and an additional \$25 for installing an Outdoor Appliance on or after July 1, 2020
- All Heating Systems, Heating and Hot Water Systems, or Heating and Hot Water Systems and/or Outdoor Appliances must be installed in accordance with the requirements of the Technical Safety BC and/or gas authority having jurisdiction in the Customer's area and in accordance with the manufacturer's specifications and all applicable laws, codes, standards and ordinances.
- Indoor Fireplace conversions are not eligible.

Heating System, Heating and Hot Water System, or Heating and Hot Water System and/or Outdoor Appliance Eligibility

- To qualify for a rebate under the Program, the connected Heating System or Heating and Hot Water System must be listed on fortisbc.com/connectogas.
- The furnace component of the Heating System or the Heating and Hot Water System must be one of the following:
 - an ENERGY STAR (Version 4.0) certified or equivalent natural gas furnace rated 95 per cent AFUE or higher;
 - equivalent furnaces must:
 - be rated 95 per cent AFUE or higher;
 - have a variable volume ECM or X-13 motor; and
 - be listed with Natural Resources Canada;
 - an ENERGY STAR certified natural gas boiler rated 94 per cent AFUE or higher; or
 - a natural gas furnace specifically designed for manufactured home use rated 95 per cent AFUE or higher.
- Heating and Hot Water Systems may be combined or not combined, as follows:
 - Combined Heating and Hot Water Systems must be either:
 - (a) ENERGY STAR certified natural gas combination boiler systems used for both space and domestic hot water heating rated 94 percent AFUE or higher; or
 - (b) combination units that consist of tankless water heaters or boilers that also provide forced-air space heating via a hydronic air handler which is CSA certified P9 standard as certified by a Standards Council of Canada entity, and listed on NRCAN's database of third-party tested systems.
 - For non-combined Heating and Hot Water systems, or Heating and Hot Water systems and/or Outdoor Appliances, all components must be installed at the same time and the water heating and Outdoor Appliance must all be natural gas systems.

Customer rebate process

- The Customer must return a signed copy of the completed application form with the Contractor details completed in full, accompanied by:

- a copy of the invoice that contains the purchase and installation date of the Heating System, Heating and Hot Water System or Heating and Hot Water System and/or Outdoor Appliance installation; and,
- details of all work performed, including the make and model number of the qualifying natural gas central Heating System, Heating and Hot Water System, or Heating and Hot Water System and/or Outdoor Appliance; and,
- the Contractor's business registration number; and
- if installed by homeowner, a copy of the approval certificate and Certificate of Inspection from the Technical Safety BC or local municipal regulatory authority.
- The completed application form must include a valid pre-qualification code from FortisBC. A code can be obtained from fortisbc.com/connectogas.
- Applications and supporting documents must be complete and emailed or postmarked within 60 days of the installation date of the Heating System, or Heating and Hot Water System, or Heating and Hot Water System and/or Outdoor Appliance.
- Processing of applications may take up to 90 days.
- FortisBC is not responsible for lost, delayed, misdirected, damaged, illegible or incomplete applications.

Contractor Rebate Process

- In addition to the Customer rebate process outlined above, the following terms apply to the Contractor rebate process:
 - Contractor rebates will be issued to the business name identified in the Contractor section of the Customer's application form for the installation of Heating Systems, Heating and Hot Water Systems, or Heating and Hot Water System and/or Outdoor Appliance; and
 - Contractor rebates will only be paid upon FortisBC's approval of the corresponding Customer rebate.

Additional terms and conditions

- FortisBC reserves the right to refuse applications or invoices that it determines, in its sole discretion, are incomplete, inaccurate or otherwise do not meet Program requirements.
- FortisBC may amend, modify or terminate this Program at any time based on funding limitations or for any other reason, without notice.
- FortisBC, not being the designer, manufacturer or provider of Heating Systems, Hot Water Systems or Outdoor Appliances, makes no representation or warranty, express or implied, as to the necessity, quality or efficiency of any such heating system submitted under this program and accepts no liability or responsibility for such heating systems.
- The Customer acknowledges that it is solely responsible for the hiring of a Contractor to install a Heating System, Hot Water System and/or an Outdoor Appliance according to the terms as described herein. FortisBC accepts no

liability for work performed by a Contractor or on behalf of a Customer with respect to the purchase, installation or maintenance of a Heating System, Hot Water System or Outdoor Appliance in conjunction with this Program.

- The Customer does hereby indemnify and save harmless FortisBC, and their respective directors, officers, agents and employees from all liability, damages, claims, demands, expenses and costs for claims, costs for injury or death of any person, damage to or destruction of property, and all economic loss suffered by any person arising from or occurring by reason of the Program, including but not limited to the installation or use of the Heating System, Hot Water System and/or Outdoor Appliance.
- The Customer agrees that FortisBC has no liability concerning any estimated energy savings of heating systems submitted under this program or the installation, performance or fitness of such heating systems.
- The Customer is responsible for safe disposal of their old furnace/boiler/water heater and ensuring it is not placed back into use.
- The Customer and the Contractor are liable for any tax imposed or payable by the participants in respect of the rebate.
- Rebates cannot be assigned or transferred.

Measurement, verification and evaluation

- "Customer Information" means all information disclosed by the Customer in any Program application materials, including personal information disclosed by the Customer, and any billing, energy use and consumption information for the premises at which the new energy Heating System, Heating and Hot Water System, or Heating and Hot Water System and/or Outdoor Appliance is installed for a period of two years before and two years after such installation. By applying for this Program, the Customer acknowledges and agrees that:
 - FortisBC collects and uses the Customer Information in order to process, administer and evaluate the Program and develop FortisBC energy conservation programs.
 - FortisBC may contact the Customer in the future to evaluate the effectiveness of the Program, which may include surveys.
 - FortisBC may retrieve the Customer's billing, energy use and consumption information from the FortisBC account database for the period set out above in order to analyse consumption behavior attributable to the Program.
 - FortisBC may disclose the Customer Information to its affiliates and contractors for the purpose of administering and evaluating this Program as described herein and developing other FortisBC energy conservation programs.
