Founder and CEO

### Why Priscilla created Graith Care?

Since I started my career in 2004, as a registered nurse, I have seen many patients struggle in their healthcare journey. So, I made the decision to provide something beyond what the regular healthcare system does today. Today's healthcare is often very reactive and focused on disease management and leaves the patient far from knowing what is really happening. I bring my experiences of working in the hospital, outpatient, hospice, home care, and insurance industries to help advocate for those in need. It is time to give control back to the healthcare consumer!

Graith's Care name came together by bringing my two daughters names Grace and Faith in one, the word Graith means "to make ready and prepare". Graith Care wants to close the gaps in healthcare for the patient's benefit, bringing all the pieces of the healthcare puzzle together for the best satisfaction in care delivery.

Advocacy is on the move!  
The healthcare system sucks,
