

Technical Data Sheet

Product Name: SYS Pads dual release

Other Common Names: SO2 generating pads, So2 sheets, SO2 Pads, Grape guard ...

Manufacturer: Sauvegarde 13. 10 rue Gabriel Marie 13010 MARSEILLE sous licence S.Y.S S.FREIJI & CIE

Product Description: SYS PAD is a customizable grape guard consisted of 3 layers. Two main SYSPad types, slow and fast SO2 release. A printed Polyethylene coated paper on the top and an absorbent kraft layer on the bottom with Sodium Metabisulfite as the active ingredient.

Product Usage: SYS PAD assures freshness and fungicidal control of botrytis during transportation and storage of table grapes.

Registrations: SYS PAD is registered as an additive in food. Directive 2006/52/CE of 5 July 2006.
SYS PAD are suitable for food contact (Regulation 1935/2004).

The analyzes carried out on grapes never revealed SO2 greater than 10mg/L.

Country Of Origin: France (FR)

Performance and duration	Month	3	3	3	1	1 to 2	YES
Grape box size advice	Kilograms	5	5	7	5	5	YES
Unit per box / Minimum Order quantity		1000	1000	500	1500	1000	NO
Pallet size per box	Box	20	20	20	20	20	YES
20 Ft container capacity	Pallets	15	15	17	15	15	YES
40 Ft Container capacity	Pallets	25	25	25	25	25	YES

Direction Of Use:

- 1 Examin that grapes are healthy.
- 2 Place a sheet of tissue on the packing material and over the sides of the box (Optional).
- 3 Place a single SYS PAD over the grapes.
- 4 Fold the perforated polyethylene over SYS PAD then seal the box. Recommended perforation 3 to 4 mm.
- 5 Place boxes of packed grapes in refrigerated storage between 0.5°C & 1.5°C / humidity over 90%.
- 6 Remove SYS PAD 8 hours prior to customer display.
