

Imagine a door with the strength of fiberglass fused with the timeless beauty of a natural woodgrain finish. Classic-Craft fiberglass doors are superior to real wood, but impossible to distinguish from wood.

- Five times more energy efficient than wood
- Won't warp, swell, crack or split
- Red oak grain looks and feels like natural wood
- Solid oak square edges
- Full length lock stile adds weight and security
- Architecturally correct stiles and rails like an oak door

With so many styles of doors and glass to choose from, Classic-Craft can complement any home. Backed with a lifetime limited warranty, Classic-Craft guarantees satisfaction. A Classic-Craft door system lowers energy costs while adding value and beauty to any home.

Decorative glass... crafted by hand.

Bring even more distinctive character to your Classic-Craft door with our decorative glass. Choose from a stunning array of doorlite, sidelite and transom options. All are insulated between two panes of tempered glass for energy efficiency.

The Most Preferred Brand in the Business™

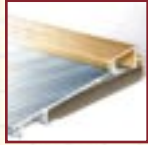

A better system. A better door.

Classic-Craft doors are part of a complete system that works together to give homes a beautiful entrance, while providing the best performance.

Proprietary adjustable security strike plate withstands 450 lbs. of force – available in brass, brushed nickel and black nickel for design flexibility

System sills are available in brass, bronze and mill finish

Decorative glass designs are encased between two panes of tempered glass for energy efficiency and easier cleaning

Self-sealing, self-adjusting sills offer maintenance-free composite cap, unique self-sealing design and rot-resistant composite substrate

Raised panels are elevated from a solid door creating dramatic shadow lines

NEW High performance adjustable sill features maintenance-free composite cap with stainless steel adjustment hardware, superior protection against air and water and rot resistant substrate base[‡]

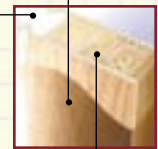

[‡] For other sill options, contact your local Therma-Tru dealer

* Optional system upgrades
System components manufactured by Therma-Tru, except door jambs and brickmold, are covered by our Lifetime Limited Warranty.

Fiberglass panels

CFC-free solid polyurethane foam core provides five times the insulation value of a wood door

Square solid oak edges

Engineered wood lock stile runs the entire length of the door adding weight and support for hardware

Oak jambs and brickmold* provide a custom look

Weatherstrip
•Seals tightly
•Removable for finishing
•Offered in white or bronze

Hinges available in brass, brushed nickel and black nickel

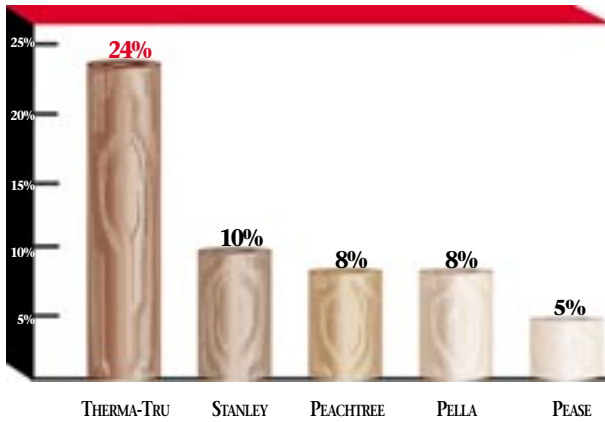

Kerfed door bottom is leak-proof and composite bottom end rail won't rot or warp

The brand more builders prefer.

No one builds doors like Therma-Tru. That's why builders across the country choose Therma-Tru Doors as the number one preferred brand by more than a two to one margin over their nearest competitor.[‡]

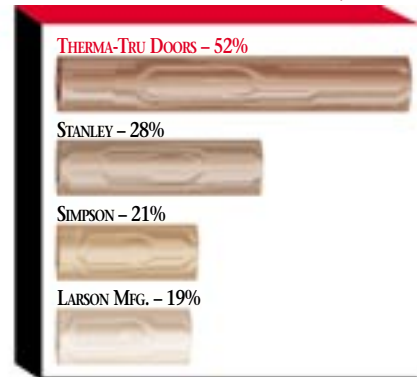

Dealers also named Therma-Tru as the brand they sell most, and as the brand they recommend most to their customers.^{††}
