

High Style™

1999 Roofing System Component

Architectural Hip & Ridge Shingles

The Pro's Choice

High Style™ Hip & Ridge

1999 Roofing System Component

Unique Shingle Construction^o Adds Extra Dimension and Dramatic Style.

Owens Corning *High Style* hip and ridge shingles add extra character to today's most sophisticated roofs. Their unique folded construction provides the ultimate in dimension and style to the hip and ridge, complementing the overall style of the roof, and your home.

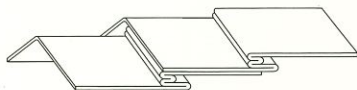

Owens Corning's *High Style* shingles match all the colors of our *Oakridge* laminated shingles and meet the same high quality standards as our other shingle products. They are also prefolded for more efficient application.

High Style shingles are primarily to be applied with Owens Corning's Architectural Series products, but they may also be used with our Performance and Traditional Series products.

Product Specifications

Size	16½" x 8"
Exposure	8"
Pieces per box	48
Lineal coverage per box	32 ft.

o US Patent No. 5,365,711

Oakridge 40

Oakridge 30

Oakridge 25

†Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on a home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection.
