

Oakridge[®] AR Series

1999 Architectural Shingles

Sculpt with Shadow

The Pro's Choice

Oakridge® AR – A contoured canopy of light and shadow.

Add depth and dimension to your roof with the rich colors and shadows of *Oakridge AR* laminated shingles.

- Shadows from subtle to dramatic accentuate your home's unique character.
- Creates a rich, dimensional look.
- Exceptional beauty, grounded in the solid reputation of Owens Corning.
- Four layers of weathering-grade asphalt ensure outstanding performance.

Before Oakridge 40 AR shingles were installed, this beautiful home was covered with a drab, uninteresting roof.

The Owens Corning Roofing System

The depth of performance that only a system can provide.

1 Hip & Ridge Shingles

These highly dimensional shingles add definition and style to your roof's ridge line.

2 VentSure® Ridge Vents

Our ridge vents, along with soffit vents, help keep air moving through

the attic, balancing the outdoor and indoor temperatures.

A roof that's too hot in the summer or too cold in the winter can result in damage like a warped deck or cracked shingles. A well-ventilated attic is key to a healthy roof.

3 Owens Corning Shingles

Owens Corning shingles have become an industry standard for quality. Surrounded by weathering-grade asphalt and covered in colorful, durable surface granules, the *Fiberglas* core ensures that performance is at the heart of every Owens Corning shingle.

Mineral Surface Granules
Weathering-Grade Asphalt
Tough Fiberglas Mat Core
Weathering-Grade Asphalt

Weathering-Grade Asphalt

4 WeatherLock® Waterproofing Underlayment†

Our waterproofing underlayment helps prevent leaks from water build-up under ice dams in cold weather.

Especially in coastal areas, *WeatherLock* keeps wind-driven rain from working its way in between the shingles and deck.

Optional for the System Advantage Warranty

5 RAFT-R-MATE® Attic Rafter Vents

These extruded polystyrene attic vents help maintain constant air flow from soffit vents through the attic insulation to the ridge vent.

6 Owens Corning Vented Soffit Panels

Owens Corning vinyl soffit panels help ensure continuous airflow through the attic when used with *VentSure* ridge vents and the complete roofing system.

The System Advantage Warranty

When a complete Owens Corning Roofing System is installed you are eligible for our Roofing System Advantage Warranty.* Once eligible, and upon registering, you get several added benefits, including an extended, up-front period of non-proration and the option to transfer the warranty one time. In addition, the warranties of all other Roofing System components will be extended to match the warranty period of the shingles installed. For more information, ask your contractor, call 1 - 800 - GET - PINK or visit our Web site at www.owenscorning.com.

Warranty Period and Non-Prorated Period

Shingles	Shingle Warranty	System Warranty Non-Prorated Period
Oakridge® 40 <i>Deep Shadow</i>	40 Years	15 Years
Oakridge® 30 <i>Shadow</i>	30 Years	10 Years
Oakridge® 25	25 Years	7 Years

If you also purchase *RAFT-R-MATE* attic rafter vents and soffit vents from Owens Corning, the non-prorated period set forth above shall be extended by an additional two years.

* See actual warranty for details, limitations and requirements.

† Required on a regional basis.

Laminates. Where dramatic dimension meets weather-ready performance.

Oakridge® 40 AR *Deep Shadow*

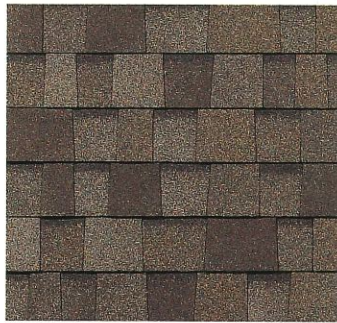

Nature's richest colors with extra deep shadows add dramatic appeal to your home's architecture.

Pat. Pending

Oakridge® 30 AR *Shadow*

Each shingle contains a radiant palette of colors and shadows which work together to give your home a warm, inviting presence.

Oakridge® 25 AR

The patterns and subtle shadows of *Oakridge 25 AR* are the sophisticated alternative to a solid color shingle.

System Components

A beautiful roof is more than skin-deep. It takes a complete system of shingles, hip and ridge, ridge vents, waterproofing underlayment, attic rafter vents and vented soffit panels to keep a roof looking its best.

Oakridge® 40 AR

Deep Shadow

- Special double shadows add drama and depth to your home.
- The most weathering-grade asphalt of any Owens Corning shingle, for 40 years of beautiful, worry-free performance.
- Rich colors designed to bring out the beauty of your siding, stone or brick.
- The perfect way to accentuate a distinctive roof line, or add interest to a neutral exterior.

Enhanced warranty protection and extended period of non-proration of 15 years available with optional System Advantage Warranty.*

* See actual warranty for details, limitations and requirements.

Driftwood

Use Harbor Blue High Ridge Hip and Ridge.

Terra Cotta Blend

Use Terra Cotta Blend High Ridge Hip and Ridge.

†Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on a home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection.

Oakridge® 30 AR *Shadow*

- Complementary shadows create a softly textured dimensional look.
- Extra weathering-grade asphalt for 30 years of exceptional performance.
- Distinct color blends add interest to your home's exterior color scheme.
- Warm, natural colors make homes look more inviting.

Enhanced warranty protection and extended period of non-proration of 10 years available with optional System Advantage Warranty.*
