

After all, there's a system
to these things.™

A house is a series of systems. At Owens Corning, we're educating consumers to better understand how these systems work and how to make them work better.

System Thinking™ for the home is the result of the Owens Corning commitment to providing home improvement and home building materials that will add lasting comfort and value to your customers' homes. Our quality product solutions are safe, effective and friendly to the environment.

System Thinking™ for your business helps increase your sales and aid your customers in the process. By looking at the whole picture – including the products and tools to complete an entire project – you can be more than a product supplier to your customers, you can provide project solutions.

For information on any of the products comprising the Owens Corning Roofing, Exterior, Insulating or Sound Control Systems, call 1-800-GET-PINK, or visit our Web site at www.owenscorning.com.

Prominence®
1999 Performance Series Shingles

Layer with Light and Color

The Pro's Choice

Prominence® – A whole new dimension in shingles.

Crown your home with *Prominence* shingles and you'll enjoy the ultimate combination of curb appeal and durable performance.

Through a mix of bold colors and patterns, *Prominence* shingles offer the textured, high-style look of a premium laminated shingle with the value and practicality of a high-performance three-tab.

Exceptional beauty and durability, grounded in the solid reputation of Owens Corning, the nation's number one manufacturer of residential roofing shingles since 1977.

Before Prominence Brownwood shingles were installed, this home seemed ordinary and nondescript.

Brownwood

The depth of performance that only a system can provide.

1 Hip & Ridge Shingles

These highly dimensional shingles add definition and style to your roof's ridge line.

2 VentSure® Ridge Vents

Our ridge vents, along with soffit vents, help keep air moving through the attic, balancing the outdoor and indoor

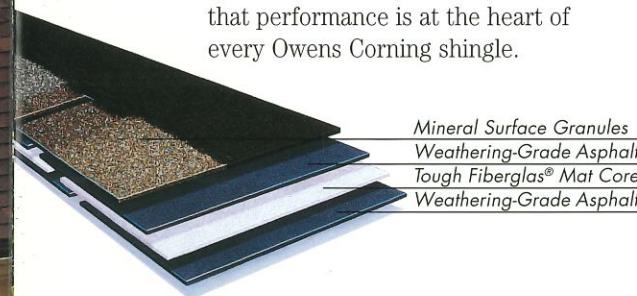

temperatures. A roof that's too hot

in the summer or too cold in the winter can result in damage like a warped deck or cracked shingles. A well-ventilated attic is key to a healthy roof.

3 Owens Corning Shingles

Owens Corning shingles have become an industry standard for quality. Surrounded by weathering-grade asphalt and covered in colorful, durable surface granules, the Fiberglas® Mat Core ensures that performance is at the heart of every Owens Corning shingle.

Mineral Surface Granules
Weathering-Grade Asphalt
Tough Fiberglas® Mat Core
Weathering-Grade Asphalt

4 WeatherLock® Waterproofing Underlayment†

Our waterproofing underlayment helps prevent leaks from water build-up under ice dams in cold weather. Especially

in coastal areas, *WeatherLock* keeps wind-driven rain from working its way in between the shingles and deck.

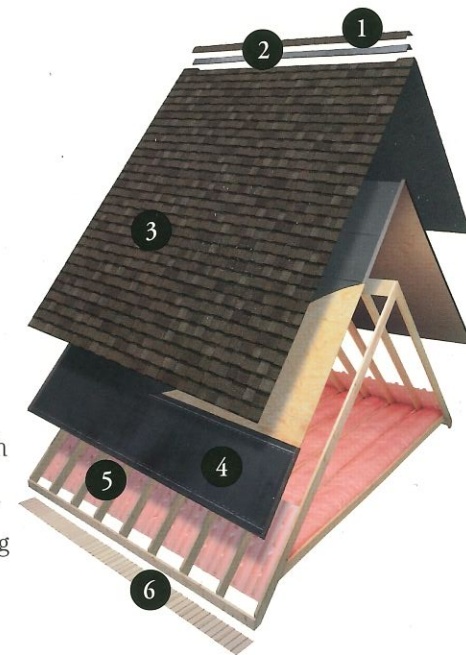

Optional for the System Advantage™ Warranty

5 RAFT-R-MATE® Attic Rafter Vents

These extruded polystyrene attic vents help maintain constant air flow from soffit vents through the attic insulation to the ridge vent.

6 Owens Corning Vented Soffit Panels

Owens Corning vinyl soffit panels help ensure continuous air flow through the attic when used with *VentSure* ridge vents and the complete roofing system.

The System Advantage Warranty

When a complete Owens Corning Roofing System is installed* you are eligible for our Roofing System Advantage Warranty. Once eligible, and upon registering, you get several added benefits, including an extended, upfront period of non-proration and the option to transfer the warranty one time. In addition, the warranties of all other Roofing System components will be extended to match the warranty period of the shingles installed.

For more information, ask your contractor, call 1 - 800 - GET - PINK or visit our Web site at www.owenscorning.com.

Warranty Period and Non-Prorated Period

Shingles	Shingle Warranty	System Warranty Non-Prorated Period
Oakridge® 40 <i>Deep Shadow</i>	40 Years	15 Years
Oakridge® 30 <i>Shadow</i>	30 Years	10 Years
Oakridge® 25	25 Years	7 Years
Prominence®	30 Years	10 Years
Supreme® 30	30 Years	10 Years
Sumpreme®	25 Years	7 Years
Classic®	20 Years	5 Years

If you also purchase *RAFT-R-MATE* attic rafter vents and soffit vents from Owens Corning, the non-prorated period set forth above shall be extended by an additional two years.

* See actual warranty for details, limitations and requirements.

† Required on a regional basis.

- ASTM D 3161
- ASTM D 3018, Type 1
- ASTM D 228
- ASTM D 3462
- UL 790, Class A
- UL 997

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on a home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof, with a pitch similar to your own roof, prior to making your final selection.
