

# Looking for a Business Loan?

A loan can be a great solution for any business looking for a cashflow boost to invest in a variety of different projects.

Business loans are designed to provide funding to help businesses start, thrive and grow.

**Unsecured business loans** do not require security over assets or property. These types of loans are great for businesses that do not own many assets and need funds quickly.

**A secured business loan** is backed up by security, usually an asset that is either owned by the business or its directors/ shareholders like a vehicles or property. These are suited to businesses who need to borrow more than £500,000.
