

FFP2 NR Mask (Civil grade)
(EN149:2001+A1:2009)

FFP2 Particle Filtering Half Mask

FFP2 NR MASK (Civil grade)

EN149:2001+A1:2009

Key Features:

FFP2 Particle Filtering Half Mask are Respirator Masks.

Bacteria and dust filtration efficiency is $\geq 94\%$

During Pandemic or emergency situations, health authorities often reference FFP2 standards when making respirator recommendations.

FFP2 mask protects those who wear them from inhaling "droplets" of infectious agents.

Our FFP2 respirator masks are disposable.

FFP2 Particle Filtering Half Mask manufactured from high quality, white polypropylene materials are soft on the skin.

The respirators are available in flat folded shape.

Mask provides high comfort and breathability for the users.

Two elastic head bands help to securely hold respirator on the face.

Packing:

5pcs in a polybag.

25pcs in a gift box.
