

KN95 (Civil grade)
(GB2626-2006)

KN95 filtering protective mask

KN95 FACE MASK (GB2626-2006)

Key Features:

KN95 masks are Respirator Masks.
Bacteria and dust filtration efficiency is $\geq 95\%$
During Pandemic or emergency situations, health authorities often reference KN95 standards when making respirator recommendations.
KN95 mask protects those who wear them from inhaling "droplets" of infectious agents.
Our KN95 respirator masks are disposable.

KN95 Respirator Mask manufactured from high quality, white polypropylene materials are soft on the skin.
The respirators are available in flat folded shape.
Mask provides high comfort and breathability for the users.
Two elastic head bands help to securely hold respirator on the face.

Packing:

Each mask is in individual packing.
50pcs in a master polybag.
