A North Carolina Product, an amped up Hendrick's-style gin. Great range – Bloody Mary to Gin and Tonic. Perfect for a non-traditional martini, rickey or other botanical forward cocktail.

Oxford Oaks Distillery – Under the Oaks Series

**These products are a culmination of the talents of our Master Distiller and a local distillery spirits formulation and finishing company during the time our distillery was being constructed. Leveraging the team's expertise, these unique spirits were conceived so that production could be moved seamlessly in phases. Key steps to the manufacturing process were transitioned in 2023 to the Oxford Oaks Distillery facility including filtering, fractionization, bottling and labeling. During the scale up of the new facility in 2024, the end-to-end manufacturing processes will be moved into the facility.

"Under the Oaks" was a series derived from the community that occurs when like-minded individuals share ideas, visions and dreams under the canopy of an old oak tree – more than occasionally with their favorite beverage in hand.
