

Brady Development, LLC was founded in 2014 by Sean Brady to enhance communities through the development and operation of quality affordable housing. Sean's unique background in both the public and private (for-profit and non-profit) sectors have enabled Brady Development to provide almost 1,500 new affordable housing units from Texas to North Carolina.

Sean is able to leverage over 15 years of affordable housing development and ownership experience to identify development opportunities or help communities use affordable housing as a foundation from which to also meet other area needs. Examples include combining **senior housing** with on-site medical care or a senior center and **work-force housing** paired with on-site community college classrooms; counseling space; or low-cost childcare. Partnerships with local governments, housing authorities, and community colleges were essential to identify and meet the right local needs.

Brady Development's approach is **Listen, Learn, Lead.**

Let us know how we can help your community or organization get to where it wants to be.

Meet Sean Brady

Prior to founding Brady Development, Sean served as Executive Director of both the Chamber of Commerce and Development Authority of Rabun County, Georgia, where he created or saved over 100 jobs, developed over 1 million square feet of industrial space, recruited companies, fostered numerous local business and workforce improvement programs, attracted new state infrastructure investments, and won almost \$2 million in federal and state grants. He also previously worked as an environmental impact analyst, leading comprehensive teams to complete numerous impact assessments under NEPA where he learned to use data analysis to guide development decisions on the front end to minimize ecological impact. Sean is a LEED Accredited Professional and holds an undergraduate degree in Environmental Science and Public Policy from Duke University, a Master's in Business Administration (Real Estate Finance) from Emory University, and a Master's in City and Regional Planning (Land Development) from Georgia Tech.

Sean has more than 15 years of experience in affordable housing with a specialty in affordable housing tax credits (both 9% and 4%/bond), building public-private partnerships with local housing authorities as full development partners, and incorporating and administering local gap funding sources (HOME, Housing Trust Funds, PBV). Federal funding experience includes AHP, HOME, RAD, HUD 221(d)4, USDA 538, Freddie TEL, and Freddie 9% Forward.
