

Solutions By JAW, LLC is a Civil Engineering and Infrastructure Support Services firm specializing in field data collection, compliance documentation, and administrative and operational management.

Our team delivers high-quality, cost-effective solutions that help agencies and organizations meet program and project objectives within budget and schedule requirements. Experienced technicians utilize advanced industry equipment and proven processes to ensure accurate, efficient, and reliable project execution.

Our administrative and operational management services further support municipalities, utilities, and infrastructure-focused organizations requiring both field data collection and back-office coordination.

solutionsbyjaw.com

As a small, minority-owned firm, SBJ maintains efficient overhead structures that allow us to deliver cost-effective professional services without compromising performance or responsiveness.

Our technicians bring experience from regional and national firms, ensuring work products consistently meet or exceed industry and client standards.
