

solutionsbyjaw.com

Solutions By JAW, LLC is a reputable Civil Engineering consulting firm that specializes in data collection through pipeline CCTV inspections as one of our services.

Our goal is to use our unmatched level of professionalism and commitment to provide high-quality service and resolve your program and project challenges within the required budgetary and schedule limits. We have diligently staffed technicians with high-level experience in using/maintaining the industry's most sophisticated equipment. This allows our staff to complete projects both quickly and efficiently.

- As a small, minority-owned firm we have low overhead and thus can provide professional services at very reasonable rates.
- Even though our prices are competitive, quality will never be sacrificed as our technicians have worked at regional and national-sized firms and will ensure that the work product meets and/or exceeds all expected standards.

- ✓ **CCTV Pipeline Inspection of Sewer / Storm Pipes 6" to 48"**
- ✓ **NASSCO PACP, MACP & LACP Coding with Report Submission by Certified Technician Outlining**
