

Hi Wolfe Lake friends

Who is missing a raft?

Jim and Bev Buchner kindly report a raft that appeared on their shore when they arrived at the lake for the season this spring.

Jim: “We tied it up at the shore so it would not create a hazard to boaters if it floated about in the lake, and in the hope that the owner would come looking for it. “

“The raft is 8 feet square, of cedar construction, floats on 5 large black plastic floats, has an aluminum ladder, and has a label on it from Rideau Docks. We would be pleased if it found its way home.”

“Margie Manthey posted a message on the Lake Facebook page a while ago, but there was no response, possibly because the right person (me included) does use Facebook.”

“Thank you”

Jim
