Description

Island Gypsy Yachts and **Island Gypsy Trawlers** are top quality ocean going trawlers that are designed for serious boating, coastal cruising or live aboard use. Island Gypsy has built a solid reputation for quality and unique design. Their hulls are designed with rough seas, long range cruising and crew comfort in mind.

The "Island Gypsy" name was coined in 1975 when the Halvorsens, an Australian family with a boat building history dating back to 1887, moved to Hong Kong to design, build and market a new range of pleasure boats to be sold worldwide.

Production was moved across the border to Southern mainland China in the early 80's and to this day, over 900 Island Gypsy boats have been built there and exported to almost every corner of the world.
