Capability Statements for Contractors

Service Description: When applying for government contracts, public works, or networking with GCs, a **Capability Statement** is your company's resume.

We craft professionally written, eye-catching statements that get you noticed.

We include:

- Core competencies
- Past performance (project portfolio)
- Differentiators (why choose you)
- Company data (DUNS, NAICS, licenses)
- Certifications (MWBE, DBE, SDVOB, etc.)
- Contact info and key personnel bios
- Visual branding consistent with your website/logo

Why it matters: *A strong capability statement builds trust and opens the door to subcontractor invites, government contracts, and prime opportunities.*
