

NCCER BASIC ELECTRICAL SYSTEMS TECHNICIAN

Technical Certificate of Credit

The Basic Electrical Systems Technician Certificate provides training in basic electrical wiring skills enabling students to gain entry level employment in the construction and maintenance industry. Topics include basic electrical principles and practices, blueprint interpretation, industrial safety procedures, and basic wiring operations.

Courses:

ONE SEMESTER	COFC 1080	Construction Trades Core
	ELTR 1000	Fundamental Electrical Concepts
	ELTR 1015	Intermediate Electrical Concepts I

This program is one semester if COFC 1080 is taken prior to enrolling into the certificate or is taken as a web-enhanced course.
