

NCCER CARPENTRY FUNDAMENTALS

Technical Certificate of Credit

The Carpentry Fundamentals certificate introduces the student to the basic levels of carpentry skills. Topics include introduction to the trade, safety, hand and power tool usage, site layout, structural framing, building envelope systems, and exterior finishes. The program emphasizes a combination of carpentry theory and practical application necessary for successful employment. Program graduates receive a carpentry fundamentals certificate and have the qualifications of an entry-level framing carpenter.

Courses:

ONE SEMESTER	COFC 1080	Construction Trades Core
	CARP 1000	Fundamental Carpentry Skills
	CARP 1015	Structural Framing I
	CARP 1020	Structural Framing II

This program is one semester if COFC 1080 is taken prior to enrolling into the certificate or is taken as a web-enhanced course.
