Fall River Special Road District Minutes

Tuesday, December 8 - 3 pm

Chairman Rick Bestwick called the meeting to order at 3pm. Present were Rick Bestwick, Ron Brown (by phone) and Bill Swanson.

November meeting minutes were approved.

There was no Old Business.

New Business - The SRD is investigating the issue of the ATT tower on the property of the Meier Estate. This involves the SRD because of the need to access the tower for construction and maintenance via Fall River Estates roads.

Since our special tax assessment pays for SRD infrastructure and maintenance, it is the position of the SRD that the Meier Estate should contribute to the road maintenance. In this capacity, the SRD is engaging with the Deschutes County Commission regarding this issue.

There was some discussion about this among the attendees of the December meeting. The SRD will update during the February meeting.

Another New Business item is that Bill Swanson will investigate the cost of the SRD in obtaining a permanent solar powered speed warning sign.

Bill Swanson's term on the Board expired at the end of December. A proposal to nominate him to another term was made and approved.

The meeting was adjourned at 3:40 pm.

Respectfully submitted
Ron Brown
