Fall River Special Road District Meeting

July 14, 2020

Location: Bud & Norma Regan Mail Station, Fall River Drive

Chairman Rick Bestwick called the meeting to order at 6:00 pm.

Present:

Rick Bestwick
Ron Brown
Bill Swanson

Previous meeting minutes were approved.

Old Business: The road chip seal cracks were repaired, and the SRD Board felt that the repairs were done well. \$1,250 was spent on repairs, as budgeted. Bill Swanson said that the next round of repairs will be done slightly differently, with a board member following behind the machinery to make sure that no community members drive on the newly-sealed cracks for the five minutes that it takes to dry.

New Business: Rick Bestwick mentioned that neighbors have been noticing increased speeding in Fall River. Since at least some of the speeding seems to be among contractors driving through the neighborhood, one suggestion is to provide contractors with a printed reminder of the speed limits.

Another suggestion is to request a portable speed device from Deschutes County, to be placed on the county-owned Fall River Drive. The SRD will contact Deschutes County to find out if this is possible.

The meeting was adjourned at 6:10 pm.

Respectfully submitted by,
Ron Brown
