

WHERE DOES THE GENERAL KEEP HIS ARMIES?

Solve the questions about circumference, and find the answer at the bottom.

I. Find the circumference. Leave in terms of π .

II. Find the circumference. Use $\pi \approx 3.14$.

(H) diameter = 2 cm

(I) radius = 5 cm

(E) diameter = 7 cm

(S) radius = 8 cm

(S) diameter = 4.5 cm

(E) radius = 2.5 cm

(L) diameter = 6 cm

III. Find the diameter. Use $\pi \approx 3.14$.

(I) circumference = 25.12 cm

(V) circumference = 43.96 cm

31.4 cm	7π cm	4π cm	6.28 cm	8 cm	50.24 cm	12 cm	5π cm	18.84 cm	16π cm	15.7 cm	14 cm	8π cm	21.98 cm	14.13 cm
