## NEW BUSINESS

### Fishing Report - R. Burrows

Roger talked about bow fishing for gar. He said the more economical way to get involved with bow fishing is to get a used bow.

Seven species of gar in the US, three in SC, spotted gar, long nose and short nose gar.

nice size gar will produce a couple good fillets. Don't eat gar eggs because the egg is toxic to humans.

Roger went on to mention that Wallace field was at one time an excellent location to hunt doves, but has seen a decline in recent years.

Meeting was adjourned at 3:20pm.

Next meeting in on September 12th, 2:30pm at the Chapter park.
