

EBI,LLC's 46 yr. Commitment to the  
Print, Converting & Packaging Industries.  
“Customers' Point of View”

Apr. 10, 2008

Duratech Industries would like to personally thank Equipment Brokers International, Bill Harris, in assisting us with our purchase of a Screen Print operation in the Southeast. Bill kept searching for potential screenprint operations in that area and informed Duratech immediately when an opportunity arose.

Bill played a vital part in negotiating, with the seller, the advantages of selling to Duratech Industries; reassuring the seller of a long term commitment to keeping the operations running with support from our corporate headquarters.

He helped to establish a favorable sell of the used equipment and assets for the acquisition because of his vast knowledge of the used equipment market.

Duratech Industries has been working with Bill Harris for over 15 years and will continue our professional relationship. When our needs are buying and selling used equipment or trying to expand operations in different locations of the United States, Equipment Brokers International is, and always will be, the preferred company to fulfill our requests.

Thanks Again Bill, from all the employees of Duratech Industries!!!!!!!!!!

Mr. Bill Harris

Equipment Brokers International

Dear Bill,

I am addressing this humble thank you note not only to you as a businessman, but to someone who has been kind, empathetic, an advisor, a coach, a mentor, an advocate, and a personal friend to me in my efforts to sell my screen printing company.

Without a doubt, you gave me a life-line of hope, and by using your business connections, captured the interest of potential buyers and encouraged them to investigate my facility and all the equipment housed here.

Therefore, I must give YOU full credit for having "Made the SALE".....

YOU took it upon yourself.... reminding..(potential buyers).. to take heed of my observations—something only a true friend would have done. Your endorsement of me and my ideas is the nicest thing anyone has done for this Southern gal in a mighty long time, and I thank you graciously for that.

It is with great pleasure that I am sending this check to you. Please consider it a mere token of appreciation for all the attention and concern I've received from you over the last few months.....

Sincerely,

Jean Jordan CEO

Aug. 8, 2020

After 67 years of successful business in April 2019 we closed our doors of our printing company. We did custom decal applications, screen print, digital print as well as numerous custom die cut jobs. Our main concern was that we could get connected with a very good and qualified company to take care of our customer base for they were extremely important to us over the years. We did work for many large accounts and serviced them very well. With the help of Bill Harris at EBI Group he was able to reach out in the industry and as luck would have it an excellent company worked out a deal for the book of business of our existing accounts, and I must say I have been very pleased with the results of the company that is continuing to service our accounts which are now in their wheel house. Their quality and technology on the cutting edge has yielded very good results. I have known Bill for many years and have several business dealings with him over the years and must say he has always been a man of extreme integrity and honesty.

My many thanks to Bill.

Sincerely

Stephen Eschbaugh

Bill,

Thank you. You have done a great job for us over the years and I appreciate all you do.

If you ever need a reference, I hope you will add me to the list.

As President of Sunset Press,Inc....Austin, TX, I would recommend the following.

EBi Group is a stand up company and Bill Harris is an honest man. Both the company and individual keep their promises.We purchased a used stamper from them...and it was delivered and installed as agreed.The price was "market fair"...and the service was professional...with good follow up. I consider them a good vendor and will use them again if the situation arises. All my best,

David Bristow

Just wanted to send a huge thank you your way for all your help with securing out Atma printer.

I have not had a chance to road test it yet, but our engineers have and all seems to be in great working order.

Thank you again for all your help,

Aoife Celoria, Ph.DNCC
