

Backyard Wedding Reception

Describe the Event

Creating a backyard reception was a way to incorporate nature with gorgeous jewel-toned colors. This is meant to be a small event that includes close friends and family to create an intimate experience for the bride and groom. There will be a constant sound of folk music to maintain that peaceful energy flowing throughout the night. The atmosphere is meant to look beautiful from day to night.

CENTRAL LOOK

- Very bohemian
- Lots of candles, lanterns, and string lights
