TESTIMONIALS

1

Chief Medical Officer of the CRO company:

“Our team has been working with Mr Liang Li since 2020 as he has been a most effective contact point for research in EU area of the company drug development planning. Mr Liang Li has always been scheduled to the hot topics of the company agenda and working without spending his time on these topics.”

2

Executive Editor of Life Science Community:

“I collaborated with Liang on a publishing project and found him to be professional, attentive, and tuned into what our specific audience is looking for. He had a strong grasp of the subject matter, which was clinical supply manufacturing for next-generation cell therapy, and he organized his ideas clearly to communicate the issues with our readers. I look forward to working with him in the future.”
