

MEET THE STYLIST

Charmaine Woodward

Hello future clients!

Thank you for making your way to my site! I hope you find everything you need here, and if not i hope you reach out!

I have been passionately styling hair since the gentle age of fourteen, and have progressed in the hair industry since then. Graduating cosmetology straight from highschool, and obtaining my Professional Cosmetology license was one of the best things that has happened for me. During Hair school I worked with several of upcoming hair salons gaining knowledge as a shampoo tech and hair braider learning the basics and fundamentals in managing a salon.

After receiving my License, I worked for several large hair companies like REGIS, RATNER, and HairClub for Men and Women where i was promoted there as a Hair Loss specialist. I was also awarded the title of managing SmartStyle Salon in Severna Park, MD. After working there

I was offered a partnership to build a salon and Beauty store from the ground up in Laurel, MD. Soon after building this Salon in 2019, Covid caused a holt and leaving us without work. During my time away, I decided to build my own home-based salon based on all of my hands on experience. I have had the pleasure of retrieving half of my clientele as well as new clients in my new area.

Currently, I've expanded my list of services adding nails, Hair replacements (non-surgical), and Holistic hair growth treatments, as well as merchandise and hair products in the making.

As a new wife, and mother of five, it has been a journey, however despite all life's adversities, I have never left my passion of helping my clients feel good about their hair and achieving their goals. God is my provider in all I do. He has never left my side, as well as the support of my family. I thank God for all He wants to do for me and all my clients. With faith, dedication, and hard work possibilities are endless! I can't wait to work with new clients so they too can feel the energy I experience every single day!
