

Home Services – Project Process Guide

Bringing Your Remodel to Life – Step by Step

Reach Out & Request an Estimate

You contact us, and we schedule a time to see your space.

Project Assessment

We visit your home, thoroughly evaluate your project, and go back to craft a fair, complete, and as-accurate-as-possible estimate.

Materials & Estimates

All **building materials** are included in our estimates. Cosmetic items—such as colors, styles, shapes, or finishes—are **your personal touch**. While we won't select these for you, we are happy to guide and suggest. Your preferences drive the look, and we provide support along the way.

What's Included

Only items specifically mentioned in the initial estimate are included. Anything not listed is the customer's responsibility. Additional items **can be added throughout the project**, but any changes will require a **change order**, and the project may slow momentarily until all parties are aligned on the new details. This ensures clarity and avoids confusion.

The Fun Begins

Once materials are selected and purchased, it's our time to work magic! ✨ Sit back, relax, and watch your space transform.

Communication

Questions or concerns? 🦉 Reach out at any point—we're here every step of the way.

Final Walkthrough & Payment

When the project meets our high standards, we'll walk you through the completed work and finalize arrangements. 🦜

Important Note

Home Services **does not choose or purchase** the following items for customers:

- 🪵 Flooring
- 😊 Cabinets
- 🪨 Countertops
- ✨ Siding
- 🌙 Shingles
- 🦋 Paint colors
- 🌴 Fixtures (such as faucets or shower hardware)
- 🐦 Appliances
- ✨ Any similar cosmetic items

If you specifically request that we handle these items, they **can be added and purchased by Home Services only after you approve the previously determined products**, and all details will be properly documented to ensure clarity and safety for all parties involved.
