Producer's Notes:

This rundown reflects an hour-long newscast structure with expanded VO count to ensure pacing and a full show clock. Breaking news (Rocket Explosion) leads A-block with immediate weather coverage. Main weather is positioned in D-block (middle of the show) to reflect severe storm urgency. Exclusive Casey Anthony PKG anchors C-block, with consumer and investigative reporting alongside. Lighter

features and kickers close out the show, ensuring balance between hard news, local issues, and community-driven stories.
