

**Labradors of Montana's training.
Contract**

Here at Labradors in Montana we offer one week, two week and 3 week training packages. We will send you video and pictures of your puppy during the time we have it in training. Depending on the package you choose will depend on how many pictures and videos and how trained your puppy will come. We do our very best to make sure you have picked the puppy best suited to fit your family and complete all training. However in any instance you choose not to go with the puppy you chose, or back out of a puppy. training is completely non-refundable. Labradors of Montana is not liable or responsible to refund any training amount.

If for some reason you decide to choose a different puppy AFTER training has started NO Refunds, However if you per se purchased a 3 week training package and we have completed a week and a half of training. You may transfer the remaining week and a half to the new puppy you choose. But NOT the full 3 weeks.

Our puppies are very smart however each puppy is different therefore sometimes puppies don't need a full 3 weeks sometimes they only need a week. Why others will not learn as much without the full 3 weeks. However there is no guarantee on how long it will take your puppy to be solid in any training. We do our very best to ensure your puppy has completed every goal in our training program. For example one puppy from the litter will be an excellent retriever. While others May not. Depending on age some puppies will only be able to hold it in the crate for an hour while others can hold it for 4 to 6 hours no problem.

Also we will not start any training before the age of 8 weeks. By signing below you acknowledge and agree to the above statement's
