**Civil & Mining Contractor and General Order Supplier**

Date:

Dear Sir,

Welcome to the GAURCRACKAMITE® Revolution! GAURCRACKAMITE®, Non-Explosive Expansive Silent Cracking / Demolition Agent, is a highly expansive powder composition and is the most effective solution for Rock Breaking, Stone Quarrying, Granite and Marble Quarrying, Mining, Concrete Demolition, Excavations, etc. GAURCRACKAMITE® is safe, environment friendly, and a good and viable alternative to explosives and other traditional methods of quarrying and demolition.

GAURCRACKAMITE® is mixed with clean water and poured into pre-drilled holes on rock and concrete.

The diluted GAURCRACKAMITE® swells and exerts a significant expansive thrust on the hole-wall, fracturing the wall and splitting the rock across the line of the drill holes.

**We are pleased to offer you a special price of Rs. 50 per kg. + Packing Charges @ 3% + G.S.T. @ 18%**

**Kindly note that demonstration and training service is available at an extra charge.**

With industry experience of over 50 years, our application team can guide you through the toughest demolition challenges and get you 100% Guaranteed Results.

GAURCRACKAMITE® is engineered in line with international specifications for Quality, Safety, Consistency, and Reliability.

We assure you that our product is of the best quality and would give you the desired results.

Meanwhile, if you could send us a picture of your application, we could give you more details on the same. Kindly visit our website [www.gaurcrackamite.in](http://www.gaurcrackamite.in) for all technical details

on General Demolition and other applications of GAURCRACKAMITE®

Looking forward to a mutually beneficial business relationship. We are looking for dealers in unrepresented territories.
