I admit that I have zero experience with super/turbocharging LS engines, but I do have lots of experience with LS engines, and them blowing head gaskets, warping/cracking heads aren't issues I've ever had to deal. The stories that I have heard about have come from things going pop. A forum community dedicated to drag racing drivers and enthusiasts. Advertisement The saying "What goes up must come down" is an appropriate startin. 31526 posts · Joined 2009. #11 · Oct 29, 2009. LOL, don't wonder, see I can appreciate a beautiful woman, I personally like Ashley Judd, and Jessica Biel, they are my all time favorites. My boyfriend LOVES women, lol, and I always find him pictures to send, so if I'm finding them, I mideswell post them for everyone right ??? lol. Search the Yellow Bullet forum for more information about the company if you're interested. Second, you are not running enough initial timing. I'm pretty sure this is why you're getting run-on. A cam with that much overlap is going to want A LOT of initial timing to "clean up" the idle. You probably have some build up in your combustion. 8K.
