

Pool Closing 8/22/23

ANNOUNCEMENT: Finch Landing HOA Members: The HOA Board of Directors has made the decision that our pool needs to be closed to refinish the pool sides and bottom. The pool will have to be emptied during the repairs. We have called in another Pool Specialist who pointed out that there are algae growing on the steps creating a slip, trip, and fall hazard. They are preparing quotes for us for refinishing the inside of the pool to eliminate the algae, repairing the lights inside the pool, and making repairs to the brick/grout work around the pool. Therefore, the Finch Landing HOA board has made the decision to keep the pool closed until the pool can be safely opened next pool season.
