

Precision Healthcare Technologies

The United State of Healthcare
– An Insider's View

Doug Sparks, Co-Founder

Who We Are

The Core Problem

Healthcare breaks at transitions.

Every handoff requires records,
compliance validation, and
proof of medical necessity.

The Data No One Sees

Providers have valid contact information for only 48.63% of patients.

They see approximately 4% of patients per month – only when they are sick.

Hidden Compliance Economics

CMS and payer compliance grading determines reimbursement.

One CPT code can have 42 payment levels between \$352 & \$179.

Why Others Failed

Google Health spent over \$200M attempting to democratize health records and failed.

EHRs and payers cannot solve this problem. Integration ensures expensive failures.

Precision's Proprietary Breakthroughs

Consumer-controlled health records.

CMS and payer compliance intelligence.

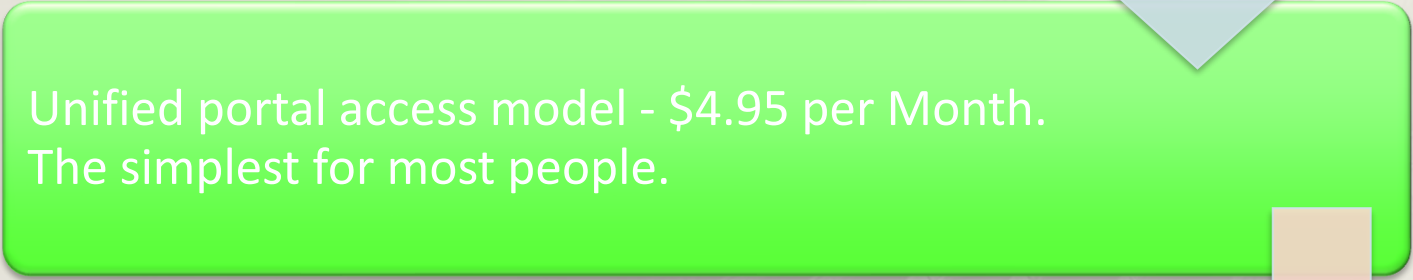

Stealth workflow Intelligence without integration.

Three Health Record Models

Assisted Free DIY consumer-controlled model.
Will always be free!

Unified portal access model - \$4.95 per Month.
The simplest for most people.

Real-time complete record model with Milliman
- \$9.95 per Month. Best for those with multiple
providers &/or involved health issues.

Consumer Adoption Engine

Free access drives mass adoption.

Medical necessity validated electronically.

No cost to providers or patients.

Provider Impact

PROVIDERS EARN MORE BY DOING
LESS UNNECESSARY WORK.

AI-DRIVEN ELECTRONIC TRIAGE
REDUCES UNNECESSARY VISITS.

Human Nature Wins

People prefer electronic engagement.

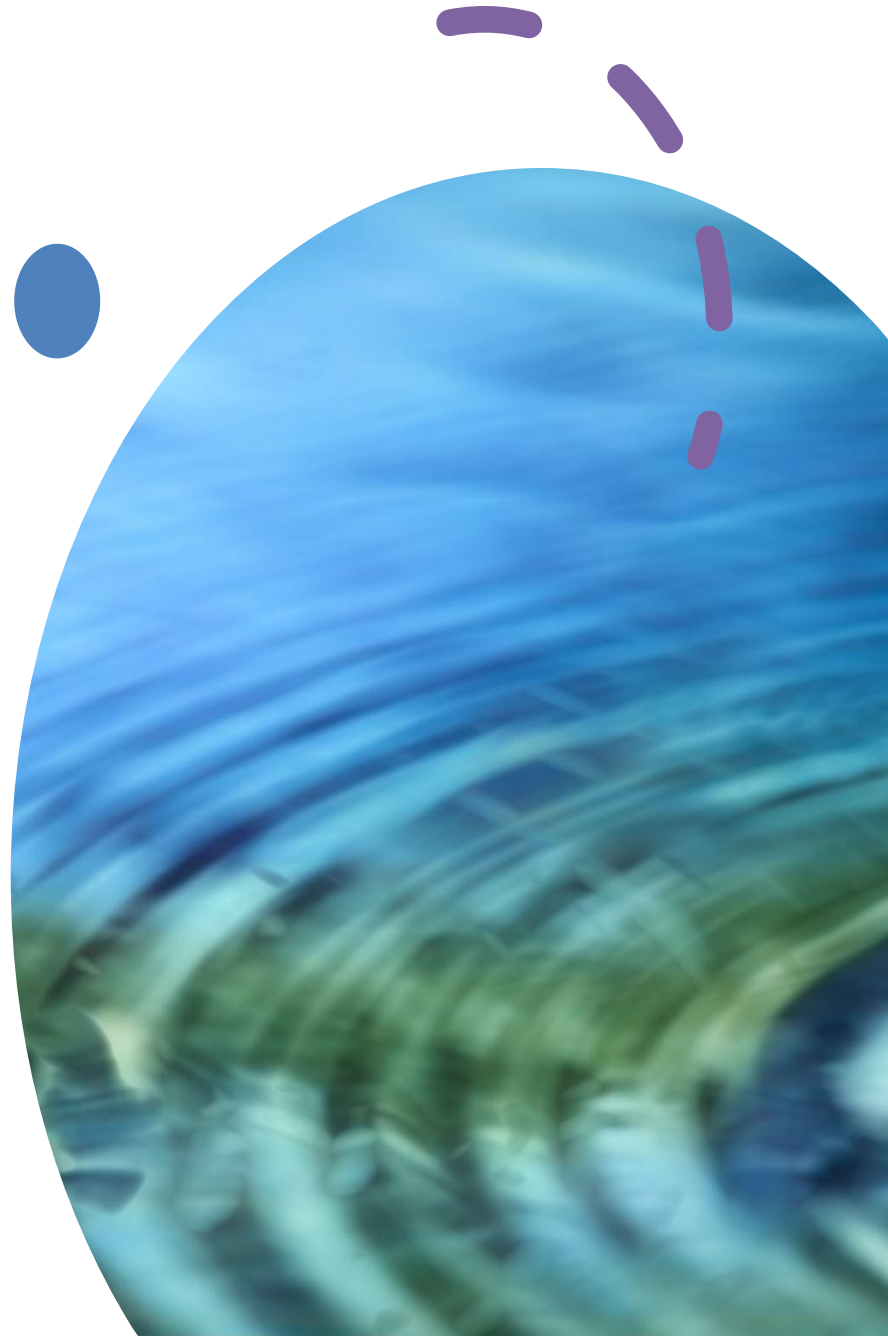

Precision response rates approach 40%.

Consumer Economics

Subscriptions
starting at
\$9.95/month.

Family visit
sharing.

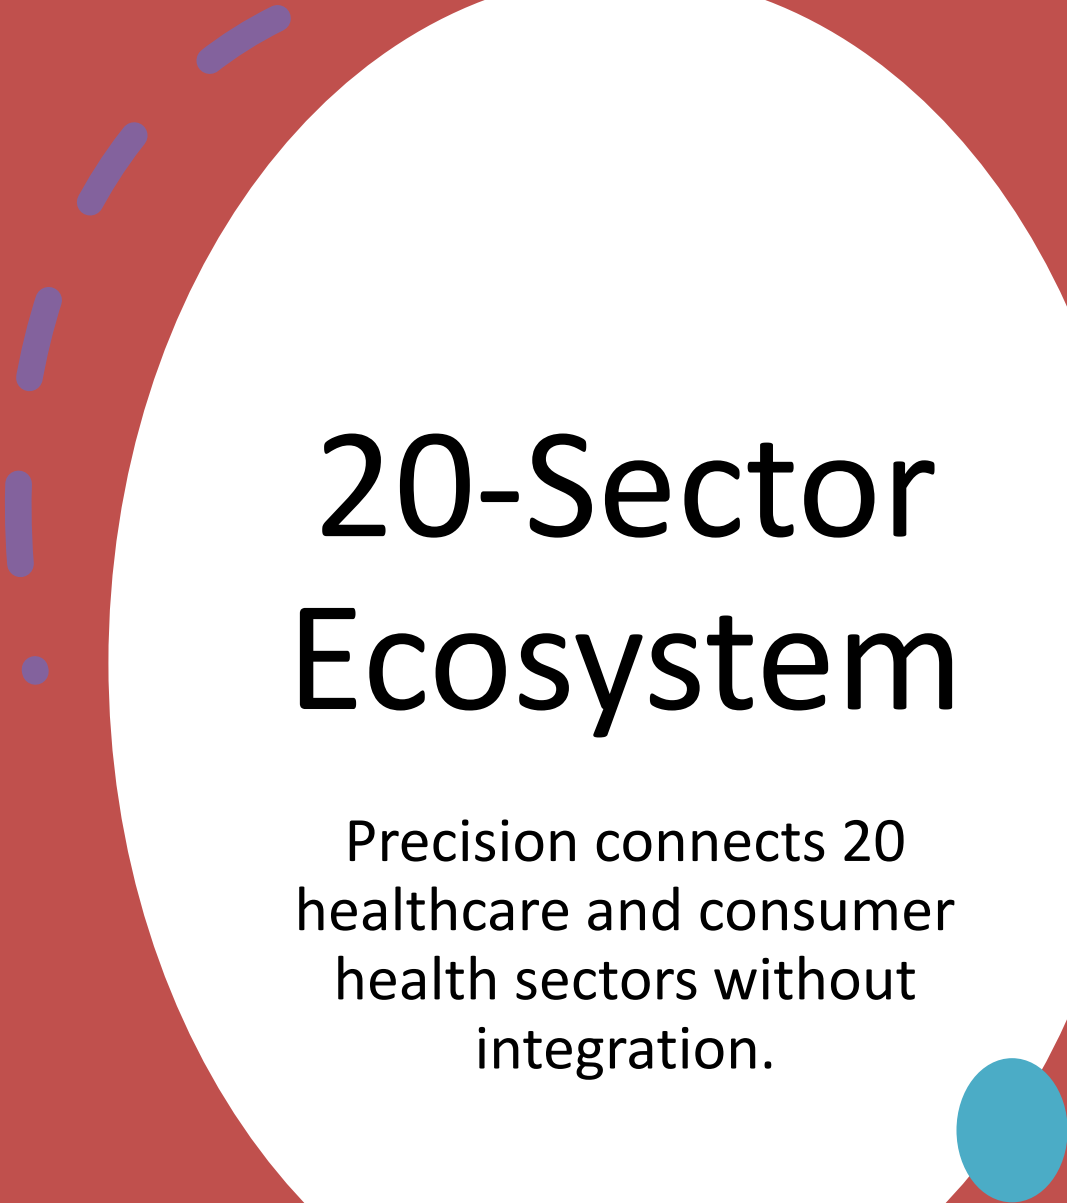

No
deductibles or
copays.

Catastrophic
Safety Net –
Insurance or
Health Share

Optional
catastrophic-only
insurance
coverage.

Major medical
backstop.

A decorative graphic on the left side of the slide. It consists of a series of purple dashed lines of varying lengths and thicknesses, arranged in a curved, semi-circular pattern. At the bottom right of this pattern is a solid blue circle.

20-Sector Ecosystem

Precision connects 20
healthcare and consumer
health sectors without
integration.

Why Partners Join

No upfront cost.

Guaranteed
profit.

Partners keep
100% of their
clinical revenue.
