PREPARING FOR DIGITAL TRANSFORMATION

Is Your Company Ready?

Joint Force Solutions (JFS) works with organizations to assist them in solving pressing business challenges such as 'Digital Infrastructure and the Industrial Internet of Things (IIoT) in a way that's good for workers, communities, and the bottom line. We help meet small business, non-for-profit, and Fortune 500 needs through our areas of expertise in design, scale and influence.

Our network of strategic alliances partner with firms to support them in achieving their business objectives while investing in their most valuable of assets, the advancement of their employees.

- **Corporate Action Plan:** With our Joint Conferencing Network Training Force (JCNTF) Council™ of Partners and Strategic Alliances, we curate a platform that prioritizes the support of our subject matter experts in tandem with implementing business performance optimization strategies. In short, you gain access to best practices, thought leadership, and other specialized resources to help you elevate your organization. Additionally, you receive invites to specialized conferences focused on relevant, high-demand subjects impacting the future.
- **C-Suite Advisory Services:** Every JFS Chapter President is available, and ready to connect you with our team of experts. We help organizations develop and deploy enhanced strategies that peak business performance in tandem with an assortment of credentialing program options to prepare and elevate the well-being of employees and their communities.
- **Corporate Training & Recruitment Series:** Our 2025 CTRS Program is in partnership with C2 Strategiese and the American Advanced Technology & Cybersecurity (AATC) Mission Critical. Our CTRS program enables your employees access to much needed training and education that is made available at convenings across the United States. Interested in learning more?
