

ISA PUNE'S IIOT CONFERENCE V4.0

**Business Excellence and Sustainability through
Automation and Digital Transformation**

FRIDAY, 2ND FEB, 2024

Time: 9.30 A.M. to 5.00 P.M.

**INTERNATIONAL SOCIETY OF AUTOMATION,
PUNE SECTION**

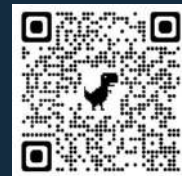

CONFERENCE TOPICS

- Automation and IIoT accelerates sustainability
- Digital transformation strategy
- Use case ideation to ROI model in DX
- Workforce 4.0 / role of Digital Champions
- IIoT implementation guide
- Importance of Digital Transformation Ecosystem
- OT security and data protection
- Relevance of IEC/ISA 62443 cybersecurity standard
- DX, IIoT and Sustainability Case studies

DELEGATES 250+

- Automation end-users from industry
- Consultants & System Integrators
- Automation products & systems mfrs.
- Turnkey contractors
- Digitalization implementers

ABOUT ISA & ISA PUNE

The International Society of Automation (ISA) is a non-profit professional association of engineers, technicians, and management engaged in industrial automation. As the globally trusted provider of foundational standards-based technical resources for the profession, ISA strives to build a better world through automation.

ISA Pune Section is one of the 12 active sections under the Asia Pacific District (APAC) of the International Society of Automation. It has active Professional Members from various segments of the Automation and Instrumentation Industry and Academia and is one of the most vibrant and happening Sections in ISA. It also has student affiliate Members from 9 engineering colleges.

ISA Pune's monthly Tech-Talks, Industry Connect programs, and Cybersecurity Training as per IS:62443 standards are well known and appreciated. The IIOT-V 4.0 Conference is in continuation with its highly successful 3 Conferences, and is themed 'Sustainable Business Excellence through Automation and Digital Transformation'.

ISA Pune's signature conference event on IIOT promises to be a unique big ticket event!

ISA Pune's IIOT Conference & Exhibition V4.0

Business Excellence and Sustainability through Automation and Digital Transformation

The world has seen 4 industrial revolutions, the 4th being Digital Transformation which is well established now and is instrumental in vastly improving safety, productivity, reliability, optimizing resources, and facilitating just-in-time practices. IIoT, Robotics, AI & ML are in common use in industry now and widely used in Automotive, FMCG, Power, Oil and gas and Petrochemicals. The next big challenge is sustainably doing this with optimal usage of Earth's depleting resources.

This Conference will focus on Business Excellence with Sustainability through Automation and Digital Transformation. It will bring together manufacturing professionals, consultants, designers, system integrators, and solution providers to discuss these challenges as well as innovative solutions and case studies.

INVALUABLE TAKEAWAYS

- Exhibition for cutting edge products & solutions
- ISA Member Entrepreneur showcase stalls
- Case Studies by domain experts
- Panel discussion
- One to one networking with automation experts
- ISA - what can it do for you?
- Special ISA membership offers
- Release of Special Edition of ISA PUNE'S Newsletter
- Advertising opportunities in Newsletter
- Exhibition stalls for ISA member entrepreneurs
- Many more

DELEGATES

IIOT V4.0, ISA Pune's full-day Exhibition and Conference will focus on existing and incoming Technologies that will facilitate a sustainable future of Automation. The event offers a unique networking opportunity, where we can meet and interact with the Industry's leading solution providers in Automation and control, bringing forth unique technical presentations and case studies, exhibiting innovative and cutting-edge technologies in automation to create a sustainable ecosystem that makes us progress to a net zero energy aim in industrial manufacturing.

We welcome CEOs, CTOs, Project Managers and Engineers, Instrumentation & Electrical Engineers, IOT Implementing Heads, End users, Consultants, EPC Contractors, System Integrators & Academia to attend IIOT V4.0 to leverage core strengths and gain valuable insights on the Emerging technologies in Sustainable Automation.
