REGISTER

www.isa-pune.org

Currently majority of industries in India are at initial stages of Industry 4.0 / Smart Manufacturing awareness. Everyone might read and hear a lot about it, but doesn't know how this new technology is applicable for the business. This conference will address this critical need of demystifying Industry 4.0!

Topics / Areas

- Industry 4.0 business perspective
- Application areas
- Industry 4.0 in Process Industries
- Technology and products landscape
- Industry 4.0 adoption – roadmap, challenges, ecosystem
- Learn from the early adopters - Case studies

Who should Attend

- CxOs of manufacturing industries
- Manufacturing Excellence professionals
- IACS professionals
- IIOT product developers, solution providers
- System integrators

Delegate Fees
