

# ISA in IIoT

Sujata Tilak  
MD, Ascent Intellimation  
Past President, ISA Pune Section

24<sup>th</sup> Nov 2018

# ISA in IIoT

- A Task Group 'Automation and Operations Lifecycle' is formed to work on alignment / upgrade of relevant ISA standards for IIoT
- A liaison agreement between ISA and IIC (Industrial Internet Consortium) was approved by both organizations in June 2018
- A Technical Interest Group 'Industrial IoT and Smart Manufacturing' is under formation

# ISA Standards related to IIoT

- ISA 18 – Alarm management
- ISA 88 – Batch control
- ISA 95 – Enterprise – control system integration
- ISA 99 / IEC 62443 – Cyber security
  - Training and Certification. Will be shortly available in India

# Industrial IoT and Smart Manufacturing TIG

- Group goals
  - Creation and collation of technical resources
  - Publish quarterly newsletter
  - Conduct webinars and events
  - Work together with Districts and Sections to promote and disseminate relevant information
  - Create various opportunities for members to collaborate and network
  - Liaison with other organizations working in IIoT and Smart Manufacturing
- Any ISA member can join this group

Thank You!
