---

# risk

*noun*

a situation involving exposure to danger.

# se·cu·ri·ty

*noun*

the state of being free from danger or threat.

# CONGRATULATIONS.

## You came to the right place.

**Security Services Resource Firm** was founded by security professionals in Colorado who believe that people are the foundation of every business.

By working with SSRF, you benefit from our expansive network, reaching to almost every corner of the country. Our strong, mutually-beneficial partnerships with leaders, organizations, and associations mean that you're not just getting us, but you're getting our connections, too.

Our security consulting services include:

- Risk Assessments & Risk Mitigation
- Training & Technology Solutions
- Policy, Procedure, & Incident Review
- Subject Matter Expertise
- Other Resource Allocation

With us, you're getting more than a consulting service, you're getting deeply experienced professionals who will come to know and understand your business and its unique challenges.

# OUR INCEPTION

Safety is a necessity in every workplace. At SSRF, we're dedicated to making your workplace as safe as it can be.

SSRF was founded by Jonathan Bollefer (JB) and Derek Prester who met in the healthcare security industry and became fast friends.

JB and Derek have worked together managing multi-million dollar portfolios, conducting risk assessments & consulting services, developing nationally sustainable security training programs, and developing comprehensive security programs in healthcare, government, and aviation.

JB and Derek have spent countless hours nurturing the concept behind SSRF and how they can best serve our clients & communities.

RESOURCE

CONTINUOUS  
IMPROVEMENT

We believe that your most important asset is your people. Collaborating with you, SSRF will come to know your people, practices, mission, vision, values, and your unique challenges. From there, we're partners in solving those challenges.

Peace of mind is priceless. You do enough.  
Let us bring you peace of mind.

# OUR MISSION, VISION, & VALUES

## Our Mission:

To make our communities safer by providing expert-level security consulting services and educating our peers.

## Our Vision:

Connect our partners with leading security resources to advance the universal approach to safety, ensuring a more sustainable, secure future.

## Our Values:

- Put the well-being of people above all.
- Ask the right questions of our partners.
- Develop meaningful relationships.
- Operate transparently.
- Educate at every opportunity.

# WHO WE ARE

Jonathan (JB) has held many titles within security services to include Corporate Security Director, Director of Security, and Director of Patrol and Ancillary Services. His CPD credentials are specific to crime prevention through environmental design, becoming a certified CPTED practitioner in 2020. JB has performed hundreds of assessments for residential, commercial, healthcare, government, aviation, and manufacturing facilities.

## JONATHAN BOLLEFER

CO-FOUNDER AND  
BUSINESS DEVELOPMENT GURU

JB believes in preserving your brand and improving your culture. He believes security has to be at the forefront of the conversation to ensure the best outcomes for your organization. JB belongs to Campus Security, Colorado Cannabis Association, ASIS, and IAHS local and national chapters. JB is a certified NRA pistol instructor, TASER Instructor, workplace violence de-escalation instructor, co-creator of Corporate Safe, and continues to work with the NICP and AICP to establish CPTED and security best practices.

## DEREK PRESTER

CO-FOUNDER AND  
OPERATIONS & TRAINING PIONEER

Derek has held titles of Physical Security Training Manager, Lead of Tactical Training & Quality, and Operations Support Coordinator. Derek has pioneered creating, scaling, and sustaining physical security training programs (de-escalation & tactical) nationally, achieving a sustained compliance rate of 95%+ through thoughtful policies, robust processes, and creative resource allocation. Derek specializes in risk mitigation, training program operations, process improvement, and incident investigation. He has conducted risk assessments of physical security, workplace violence prevention, risk identification & mitigation, and policy & procedure for healthcare and government facilities nationwide. He has established cross-functional committees to develop & evaluate policy, training, and critical incident response. Derek has served as an expert witness, partnering with legal teams on critical incident review, deposition, and expert witness testimony at trial.

His certifications include Certified Force Science Analyst, Realistic De-Escalation Instructor, Use of Force Simulation Training Master Instructor from Ti Training, TASER Instructor, Pistol Instructor, Tactical Krav Maga Instructor, and Certified Healthcare Security Supervisor.

# OUR PHILOSOPHY TO INTEGRATED SOLUTIONS

We believe that data and industry standards coupled with compliance and success measures should drive the direction of the security program. We will work with you to evaluate your data and understand what the data is really saying. We will utilize benchmarking tools and community standards to ensure that we are bridging any identified gaps in your security program in a way that will work for you.

Creating a safer workplace is a collaborative effort. We won't point you in a direction and tell you "go that way." We will be there with you every step of the way. Through evaluating your data, understanding your processes & policies, evaluating your current training & technology, and knowing what success will mean to you, we will develop a plan that is effective, practical, and sustainable.

# WHAT WE DO & HOW WE DO IT

## ASSESSMENTS

Establishing what success looks like will be a collaborative effort, and is integral to the process. Through assessments and walk-throughs, we will get to know your business' ins and outs and your challenges so we can preserve your culture while making your workplace safer.

Then, we will explore the various solutions we offer, discuss resources, networking opportunities, and develop a plan to secure your business. Utilizing data, best practices, and community standards, we will ensure your plan makes sense for the dynamic world in which you operate.

## SOLUTIONS

Through collaboration with your key stakeholders, we will execute our plan. We will supply you with functional deliverables, and develop a strategy for ongoing review and analysis to ensure our plan continues to work for your organization. Once partners, always partners.

## OPTIMIZATION

# OUR PROCESS

Define success

Data analysis

Walk-throughs

Environment assessment

Stakeholder meetings

Training evaluation

Technology evaluation

Policy &  
documentation assessment

Resource allocation

Success planning

Execution

Continuous improvement

Our process begins and ends with you. We will co-create what success will look like to guarantee two-way accountability.

We are at your disposal for as long as we are partners. We will be transparent with you about our findings every step of the way.

Our solutions will be dynamic & agile so they can flex with the demands of your business. As threats evolve, so will your security.

—— But that's not where it ends. ——

A hand is shown on the left, pouring water onto a row of five green seedlings of increasing size that are growing in a field of dark soil. The background is a bright, green, bokeh-filled field.

We will continue to collaborate with you to ensure your security program matures.

---

CONTINUOUS IMPROVEMENT IS IN OUR DNA.

---

Let us bring you peace of mind so that you can focus on your mission.

# THANK YOU.

We look forward to our partnership.
