Empowering literacy through storytelling

"TODAY A READER, TOMORROW A LEADER" – MARGARET FULLER.

A sample story about the word “Kochi” powered by **Readiverse™**

"Kochi is a city in India. It is very old and has a long history. Many years ago, Kochi was a small fishing village. People caught fish and sold them. Then, traders from other countries came to Kochi. They came from China, Portugal, and the Netherlands. They brought goods like spices and silk. Kochi became a busy port. Many ships came to trade. The Chinese built big fishing nets in Kochi. These nets are still there today. People visit Kochi to see them. Kochi is now a modern city, but it still has old buildings and streets. Many people visit Kochi to learn about its history and culture."

Report will be based on Canadian Language Benchmarks (CLB)

The Canadian Language Benchmarks (CLB) are a set of standards that describe different levels of English language proficiency. They are used to assess the language skills of adult immigrants and prospective immigrants to Canada.

There are 12 CLB levels, ranging from 1 (basic) to 12 (advanced). Each level describes the language skills needed for specific tasks, such as understanding instructions, communicating with others, and reading and writing complex texts.
